Important Notice

Bids for this Sale will be accepted **ONLY** on the terms as printed on cover-page 3 of this catalog. If you are bidding for the first time or if you are not acquainted with my Sale Terms, **PLEASE BE SURE TO READ THE TERMS BEFORE BIDDING.**

More than fifteen hundred catalogs of this Sale are being distributed. Therefore, in order to serve most satisfactorily so many clients, a uniform service or method of sale must be strictly adhered to.

The terms and methods of Sale used by me have been perfected after more than twenty-five years of successful experience. And while I know that it is humanly impossible to at all times please everyone, but the fact that my Sales are so widely and extensively patronized throughout these many years, is more than sufficient evidence that these terms and methods of sale are approved by the collectors of the country and that they are fair, reasonable and consistent with good business.

So please bear in mind that positively no deviations from the terms of sale as printed on cover-page 3 of the catalog will be made for anyone.

Every bid received is executed by me just as faithfully as if you had yourself been present at the sale. You can help me give you better service if you will please mail your bids now.

Very cordially,

A GREAT COLLECTOR *and* FAMOUS ENGINEER

Capt. John Francis Anderson was born in Sweden in 1848. He came to America a young sailor before the mast. Here he learned engineering and set forth to fame as a master builder. Throughout the world his engineering accomplishments are known. He superintended the building of the Hudson River tunnel, between New York City and Jersey City. He laid the foundations for the Hawkesbury Bridge, New South Wales, Australia, which are still the deepest in the world. These are but few of his important works.

His work and knowledge was recognized and rewarded by scientists and royalty. Besides honorary awards and titles, he also was the recipient of many art objects given him in gratitude for his aid to mankind.

Several times he traveled around the world. In these travels he indulged in his hobby for collecting valuable art works, antiques, rare books, and curios and rare coins.

He brought all his collections to his San Diego, Calif., home when he decided to retire. But first he gave a fine collection of East Indian Masks to the Old Northern Museum, Stockholm, Sweden. He gave the Natural History Museum in Balboa a collection of shells. And his collection of nearly a hundred paintings, pewter ware, rare clocks, ancient weapons, etc., were sold at auction at his residence.

His numismatic collection which I have the privilege of offering herewith, is one of the most extensive as to varieties that has ever passed through my hands. There are coins of practically every period, age and country of the entire world, from the time money was invented about 500 B. C. down to the present day. Every item in this catalog will be sold without reserve on the terms as printed on the inside back cover of this catalog, and every bid received is assured of my most careful attention and appreciation.

I SOLICIT FOR MY PROVEN SUCCESSFUL SALES

Collections of Rare Coins. or I Will Purchase Outright for Immediate Cash Payment.

Through my extensive advertising for the past more than twenty-five years, I enjoy by far the greatest numismatic market of any other similar firm. In the past six years alone I have spent in actual cash over a hundred and fifty thousand dollars for magazine advertising, creating new collectors by the hundreds, thereby giving me by far the largest numismatic market.

My sales are carefully planned, extensively advertised and successfully conducted. In the past several years, you have noticed that the greater preponderance of all real fine and important sales were held by me.

Write me for terms. They are no higher than elsewhere. Liberal amounts of cash advanced without interest.
